Summit Wood Industries, Inc. Orrville, OH, USA

Wood Stoves, Wood-fired Boilers, Fireplaces and Inserts, Pizza Ovens, Fire Pits, Campfires and Chimineas

- 100% Recycled kiln-dried hardwood sawdust compressed together
- No trees are harvested to manufacture BIO BLOCKS
- BIO BLOCKS burn clean, creating minimal smoke, creosote, and ash

- BIO BLOCKS can be used in a wood-fired boiler, wood stove, or fireplace
- Experience the ambience and warmth of a fire without the hassle of firewood
- No bugs or dirt in the house

- BIO BLOCKS are safe for cooking and grilling.
No artificial binders, glue or wax are added
- BIO BLOCKS are a green alternative to firewood or charcoal

- BIO BLOCKS are ideal for camping
- Safe to transport without spreading invasive insects
